BIRDIES FOR THE BRAVE – SEE ATTACHED FLYER

TPC Prestancia is hosting a charity golf tournament benefiting Birdies for the Brave® on **Monday, November 12th, 2018.**

Birdies for the Brave was originally created in 2006 by PGA TOUR player, Phil Mickelson, and his wife, Amy, to support combat-wounded veterans. The PGA TOUR subsequently adopted the program, and expanded it to include a wide variety of military outreach and appreciation activities during PGA TOUR events, as well as a series of fundraising events conducted at the PGA TOUR's Tournament Players Clubs (TPCs) and Heritage Golf Group courses across the nation – an effort that has raised more than \$17 million for non-profit military home front groups that are supported by PGA TOUR players, which provide direct support to military members, veterans, and their families ranging from financial aid, rehabilitation services, counseling and housing to educational scholarships and career development. For more information, please contact Kevin Swan via email kswan@heritagegolfgroup.com or by phone (941) 922-2800 x 3228.

On The Grounds

FLAX LILY (DIANELLA TASMANICA 'VARIEGATA')

This drought-resistant perennial produces late-summer flowers and is grown primarily for its variegated strappy foliage. Although the flax lily does well when planted in shady locations, the more sun the better for keeping the variegation at its peak. In early summer, it sends up branching clusters of white, light blue, or violet star-shaped flowers followed by shiny dark turquoise blue berries lasting from fall into winter, however, its handsome green leaves with contrasting yellow stripes will brighten the landscape year-round.

Sarasota County wants your input!

Final Draft of the proposed UDC

Now available

Sarasota County is creating a Unified Development Code (UDC) that updates and brings together the land development and zoning regulations, which control the development of all properties in the unincorporated area of Sarasota County. The new code will be more user-friendly and allow the public to more easily find the rules that apply to a property.

Sarasota County is committed to keeping the public involved and up-to-date throughout this process. A [UDC Project web page](#) has been established for this purpose at www.scgov.net (Keywords: 'Unified Development Code'). The proposed UDC ultimately will be subject to the full public hearing process and has been presented to various groups, advisory committees, and will be presented to the Sarasota County Commission (Board) for consideration.

Sarasota County staff have been working with the consulting firm of Calvin, Giordano & Associates (CGA) to create the UDC. Phase I of this 3 phased effort began in March of 2017 with a discovery process conducted by CGA that involved discussions with various representatives of the community, public review bodies, and county staff. Phase II engaged the community through 3 public workshops in September, October, and November of last year. Phase III involves the full public hearing review process that concludes with the Board taking action on a Final Draft of the proposed UDC.

CGA has prepared this Final Draft of the proposed UDC based on the input received from the Planning Commission public hearings, and it is now available for public review on the UDC Project web page. The County fully anticipates that the UDC will continue to evolve as it makes its way through the review process, including more refined editing. Any comments on the Final Draft should be submitted to the County so that CGA can address them to the Board at the public hearings scheduled for October.

You may provide your comments directly on the [UDC Project web page](#) or by submitting them to the Planning and Development Services Department at planner@scgov.net.

Input received will be addressed by the consultant as the UDC Project moves forward.
