IN MEMORIAM

Two tragedies struck the Master Association during the month of May, through the loss of two of our board members, Garry Wharton and Nicholas Spina. These gentlemen were committed to Palmer Ranch and gave

countless hours of their time to make the ranch better. While one may have witnessed them during board meetings, it was the behind the scenes work they did that did not go unnoticed by those who worked with them. We are forever grateful for their service to the Palmer Ranch community and offer sincere condolences to their friends and loved ones.

Everything You Need to Know About Palmer Ranch - Wildlife on Palmer Ranch

Native habitat preservation and wildlife corridors are an integral part of the planning process in development on the ranch. It's a regular occurrence to see a Bald Eagle soaring overhead, having to slow for a Sandhill Crane to cross the road, or witness a Roseate Spoonbill soar across a pond. One of the reasons many homeowners purchase homes on the ranch is due to the abundant wildlife. Members have witnessed Otters playing rambunctiously in our waterways. Further, nothing gets your attention quicker than hearing alligators practice their mating calls. Palmer Ranch also has Wild Turkey, Bobcat, Coyote as well as the occasional Florida Panther sighting.

Over the years our office has received numerous photos of the abundant wildlife we have on the ranch. Here are just a few:
